

Incubation Centre, NPIC-CIF at CSIR-CFTRI becomes operational

CSIR-Central Food Technological Research Institute based in Mysuru formally admitted two startup ventures into its Incubation Facility in a brief function held on August 2, 2016. One of the companies, NutriPlanet Foods Pvt Ltd is working on developing superfood based products, whereas Scool Meal Foods Pvt Ltd. will bring out customised nutrition products targeted at school children. Both the companies are registered in Bengaluru and have strong business plans to come out with niche products in their respective domains.

The Nutra Phyto Incubation Centre and Common Instrumentation Facilities (NPIC-CIF) is an incubator established by CSIR-CFTRI, Mysuru in association with KBITS, Government of Karnataka. The NPIC-CIF has the facilities and support systems to help entrepreneurs to develop technologies and products with advanced nutrition designs. Also the incubatees will have access to the infrastructure and support systems of CSIR-CFTRI.

Prof. Ram Rajasekharan, Director, CSIR-CFTRI with Dr. Jagdish N Mittur, Head, Biotech Facilitation Cell, KBITS, Government of Karnataka and Dr. K.N.C.Murthy, Principal Scientist, MS Ramaiah Medical College and Hospitals were present on the occasion.
